

## Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically start to both unload and release as soon as the bumper release contacts the side of a dumpster. Once dumping is finished, the hopper could return to original locked and upright position. This piece of machinery also comes with a cable which allows operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This product is made with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
