

TCM Forklift Parts

TCM Forklift Part - Forklift trucks are a major player in the material handling field of each and every global business. Transporting industrial goods takes place every day on our busy planet. First innovated as industrial vehicles in the 1930s in the U.S., forklifts gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

Originally founded as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began constructing forklift manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated expertise and technology, TCM has been proudly making many models of industrial trucks, making their models known all around the globe. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling business.
