

Meritor Part

Meritor Parts - The Meritor Business is a leading international dealer founded upon one hundred years of custom of service and quality. Meritor focuses on integrated systems together with several modules and components to the original machinery makers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and feels that this particular energy contributes to their competitive advantage in the global operations. The company values their clients and would like to ensure their success while anticipating their diverse needs. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor encourages innovation and collaboration among a team of experienced experts.

By only hiring future focused staff, Meritor strongly believes these top-caliber individuals will be able to quickly adapt to changing environments and demonstrate the commitment and performance needed to be able to attain results in the competitive materials handling market. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all their workers different possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include drivelines, axles, suspension and braking systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of their global engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the globe in 19 countries and in 5 different continents.

The supplier development network is specially situated to support new business growth. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every part of the business. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business methods and implement lean methods.
