Clark Forklift Part - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific items intended for 20 distinctive designs of lift trucks and automated equipment. Your regional Clark Seller is your total source for availability of all your components needs offered by Clark Totalift.

Clark has a exceptional Parts Supply team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a continual mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the very economical and advantageous system of "Lean Production" for its assembly plants and use of resources. This system was established to acknowledge the most effective approaches of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to enhance the effectiveness and excellence of their products while minimizing expenses. The new value engineering agenda combines modern product growth and provides superior client support and service within the industry.
